

# GLASS FRONT VENDING MACHINES

## Features

- Attention-Grabbing, Clear Glass Fronts
- Multiple Price and Package Capabilities
- Improved air flow concentrates on next-to-be vended products
- Performance Tested to The Coca-Cola Company's rigorous quality standards
- Note reader / bill validator, offering the convenience of both coin and notes
- All Glass Front Venders have full Australian Electrical Safety Certification issued by relevant Government Authority as well as C Tick compliance

## Benefits

- Improves merchandising of brands and packages so your customers can find the brands and packages they want faster
- Note reader / bill validator, capturing additional sales
- Guaranteed superior cooling performance
- You can offer your customers the brand and package variety they want throughout the day
- Increases variety while occupying less space than multiple vending machines
- Product delivery system is entertaining & fun to use

**Australia's favourite brands in the best selling impulse packs**
